Re: Authorization to Commence Service

Dear Ms. Lozano,

I grant Algonquin Gas Transmission, LLC's (Algonquin) January 11, 2022 request to place into service all project facilities associated with the Yorktown M&R Replacement & Reliability Project in Westchester County, New York. Your request complies with environmental condition 10 of the Commission's April 4, 2019 *Order Issuing Certificate* (Order) issued in the above-referenced dockets. Based on Algonquin's recent construction status reports and photographic documentation, I find that Algonquin has demonstrated that stabilization and restoration of the disturbed area is proceeding satisfactorily.

I remind you that Algonquin must comply with all applicable remaining terms and conditions of the Order. If you have any questions, please contact Dawn Ramsey at (202) 502-6856.

Sincerely,

J. Rich McGuire, Director
Division of Gas – Environment and
Engineering
