Re: Notice to Proceed with Construction of the Redtail Compressor Station

Dear Mr. Cutright:

I grant your April 29, 2024, request for Trailblazer Pipeline Company LLC (Trailblazer) and Rockies Express Pipeline LLC (Rockies Express) (collectively, Applicants) to proceed with the remainder of the construction associated with the Redtail Compressor Station. In considering this notice to proceed, we have reviewed the supplemental materials submitted with your April 29, 2024, request, your Implementation Plan filed on November 1, 2023, as supplemented on November 17 and 30, and December 11, 12, and 13, 2023, and the best management practices described in your application and subsequent filings. In your request, you indicate that construction of the station is consistent with the Nebraska Department of Environment and Energy approval of a variance request on April 25, 2024.

We have confirmed the Applicants' receipt of all federal authorizations relevant to the approved activities herein. I remind you that the Applicants must comply with all applicable remaining terms and conditions of the Commission's October 23, 2023, *Order Issuing Certificate and Granting Abandonment*. If you have any questions, please call me at (202) 502-8081.

Sincerely,

Amanda Mardiney
